

DNTA REPORT
March 26, 2020

Hello School Board, District Management, and Community Members:

This is Marshall Jones, Del Norte Teachers Association President.

I am asking everyone to please keep in mind that although we are experiencing uncertainty and fear, that we are all stronger than we realize and that this pandemic will end and we will be stronger and more prepared going forward.

Teachers, classified, as well as administration have been working very hard to ensure that students will continue to receive educational opportunities while this plays out.

I am inspired by the number of parents and community members that have reached out to ask, "How are things going"? "What can we do to help"?

The community continues to be very supportive, and that support is greatly appreciated.

Thank you,

Marshall Jones, President
Del Norte Teachers Association
